Beauty

- Reduces wrinkles on the skin due to anti-ageing effect of molecular hydrogen
- Oxidation-reduction potential of the skin increases by oxidative damage and also by aging
- Molecular hydrogen decreases the ORP of human skin and improves the elasticity
- Protect against UV-induced skin cell damage/sun burn
- Improves fluency and gloss of hair

Sports

- Improves endurance
- Decreases muscle fatigue
- Speedy recovery from sports related injury
- Improves cardiovascular parameters

Plug & Play

PRODUCT SPECIFICATION OF ELICARE

Model	Elicare® 60	Elicare® 84
Power	216 W	216 W
Number of gas outlet	1	1
Production of HHO	60 LPH (Litre per hour)	84 LPH (Litre per hour)
Consumption of water	0.03 Litre/hour	0.05 Litre/hour
Dimension	17" (length) × 13" (height) × 6" (width)	17" (length) × 13" (height) × 6" (width)
Weight	17-18 kg	17-18 kg
Phase	Single	Single
Warranty	24 months	24 months
Maintenance	Top up distilled /deionized/RO water as soon as 100% indicator is off.	Top up distilled /deionized/RO water as soon as 100% indicator is off.
Cost of operation	Complete drainage of electrolyte in every month 100 INR/month (for daily usage of 1 hour)	Complete drainage of electrolyte in every month 100 INR/month (for daily usage of 1 hour)
